**LICENSE FOR FOREIGN FILING UNDER**  
**Title 35, United States Code, Section 184**  
**Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Re: U.S. Patent Application Serial No. 10/698,862 filed Nov. 3, 2003  
Inventors: Mark P. Lowell et al.  
For: "Enhanced Bingo Game Method, Apparatus, and  
Computer Program Product"  
Our Ref.: 77297.004003C

Dear Ms. Stokes:

Per our conversation at 12:45 p.m. yesterday afternoon, enclosed is a Request for Corrected Filing Receipt and Submission of Application Data Sheet for the above-referenced application to change the characterization of the relationship of this application from a "continuation" application to a "continuation-in-part". No examiner is yet assigned to the application, hence this request is being filed with your office to make the necessary corrections. As noted during our call, the transmittal indicated that this was a "continuation" application, and this was acknowledged on the filing receipt but not included in the specification, although a benefit claim was made in the specification. However, the proper designation should be "continuation-in-part." Hence, we request that the enclosed Application Data Sheet be entered, the filing receipt be corrected to reflect this status, and a new filing receipt be issued. A preliminary amendment is also being filed to correct the oversight in the specification. Per our discussion of MPEP Section 201.11 III D, a Petition should not be required under these circumstances. (Ms. Magdalen Y. Greenlief from the Office of Deputy Commissioner for Examination concurred in this view during an earlier call.) Please call the undersigned if you have any questions.

Very truly yours,

  
Paul F. McQuade
